Maritime Pathways

Success Stories

“I didn’t know there were so many exciting careers in the maritime industry. Using the sailing simulator about sea survival made me realise this is something I can actually do for a living. I feel like I finally have a future.”

Tommy, UKSA bursary recipient

“I come from a rough area of London where violence and abuse are common. Without UKSA, I worry I would have ended up in the wrong crowd. This opportunity has given me the skills and the confidence to step into the industry. With UKSA, I know I can handle any challenges that come my way competently in emergencies.”

**Jaden Owusu, UKSA Cadetship Graduate,
on Motor Yacht Seawolf**
